

Marlene Wallace New Gold Life Master

Marlene "accidentally" got into her first Duplicate bridge game in 1972 and became "hooked". As she was teaching school and had a 30 km. drive to the Red Deer Bridge Club, Marlene played very seldom in her early years of duplicate bridge.

Marlene and her husband I travelled with other members of their club to Sectional and Regional tournaments in Alberta. They had lots of fun and met many great players.

After Marlene retired from teaching, she got her Director's papers and really concentrated on playing and directing bridge.

Marlene thanks her regular partners for helping her reach Gold Life Master status. She hopes they continue the good work so she can reach the next level of Sapphire Life Master.
