

Nancy Conley

New Life Master

Nancy started playing duplicate after she retired and loves it. The St George bridge community is very supportive of new players and they made it fun. Nancy did not play much the first few years after she got her ACBL number but decided if she wanted people to play with her she had better step up her game by playing more. When Nancy had about 100 points she went to a Regional in Palm Springs. She picked up a partner and they were fortunate to win a Gold Rush - top over 64 tables - just under 18 Gold points! Getting her Life Master was definitely doable after that!

This year in the middle of May she had 292 points (and all the gold, red, silver, and black she needed. Nancy then started playing BBO and quickly got the remaining points needed for Life Master! She loves this game!
