I can't remember a time when I didn't enjoy playing cards. Growing up it was war or solitaire or canasta. At college I spent many all nighters at hearts and poker. It wasn't until 1980 that I found the game of bridge and found that I enjoyed that game above all others. Since then, and sometimes I hate to say it, my life has revolved around bridge. From cutting my way through the smoke weekly for the first few years to making sure I found a tournament on the weekends on extended business travels to planning almost all of my vacations around a bridge regional or national, bridge has been a large part of my life.

I was born and raised in a small town in New Mexico, graduated with a degree in economics from BYU, and spent most of my career in manufacturing except for a couple of forays into owning my own business's.

I am a certified director but would much rather play so haven't done much directing. I have served on the board of our local unit.

I am grateful for bridge because from it I have met and become friends with many interesting and fun people and found the love of my life and a life time partner. I hope you all get as much from the game as I have.
