

## Perry Clark New ACBL Silver Life Master

Perry started playing bridge when she was a second year nursing student way back when.....and continued to play socially, never joining the ACBL until later in life.....she thinks around 1994. She then met her current life partner, Robert Dow, and they played in many Sectional and Regional Tournaments around Alberta, BC and the US. They played in the Honolulu Regional two or three times and she remembers getting her Life Master in the Tampa Regional with some Florida friends they had met on a cruise. Perry took about 10 years off from playing in clubs because of work pressures and then when she retired she started going back to play in clubs. She never quit playing though. Perry has a partner on line whom she has played with for the past 18 years, playing 2 speedball tournaments every Monday and Thursday nights. He is from Hartford Connecticut and they went down there a couple of years ago to meet him and his wife and spent a very nice evening over pumpkin pie and bridge. (They beat us as she remembers.) Perry taught him how to play 2/1 and they have a nice partnership on BBO. They are about to go out to Penticton to play in the Regional there with some Kelowna friends for the week, so hope they will be able to pull some more points toward the next goal.
