

## Stephen Visocan New Gold Life Master

---

Stephen's first thought was to take this opportunity to thank all of the partners that carried him to this level. But he also wanted to say that for him bridge is much more than a game of cards and master points. For Stephen the social aspects of the game are as important or maybe more so. Stephen has made friends throughout the United States and Canada, both as partners and opponents..

Stephen's first award at bridge was won at the Shelby Nationals, a trophy for the player with less than 300 points who won the most points at their tournament. This year he went over 2,500 points at the Shelby Nationals. That tournament will always have special meaning for him. In Stephen's own words, "And so to all of the many friends I have made playing bridge, thanks for your help. I love you all."
